

UPF3A/UPF3B by stage — groups from the supplementary contrast table
only testis libraries belong to that contrast, so every other panel is ungrouped

● Juvenile (contrast table)
 ● Adult (contrast table)
 ● ungrouped
 - - - Birth
 - - - Onset meiosis, oogenesis
 - - - Onset meiosis, spermatogenesis

log₂(UPF3A / UPF3B), relative to the earliest stage of that tissue
